

*LAIRDIL Laboratory,
Toulouse University, France
Observatory for foreign language
usage in the workplace*

A place for **information,**
knowledge exchange and
cooperation between academic
and industrial environments in the
context of teaching/learning and
use of languages.

Planned actions

- Events (seminars, workshops, conferences) hosting speakers from the business world and academia
- Knowledge exchange, co-training
- Research projects, research / education theses and dissertations
- Publications
- Information dissemination website

Cooperation is welcomed with:

- Other regions of France
- European countries
- International countries

An initiative creating a direct and durable link
between business and universities for languages
